EASTERN PRINTING MATERIALS L.L.C.

Since 1987

OUR MISSION

We deliver high-quality printing and innovative packaging solutions to help our clients achieve their goals with precision and creativity.

OUR VALUES

We prioritize integrity, quality and customer satisfaction.
We ensure the highest standards in everything we do.

OUR EXPERTISE

With more than 37 years of experience in the printing industry.
We bring unmatched knowledge and skill to every project.

ABOUT US

Founded in 1987, Eastern Printing Materials has grown to become one of the leading suppliers of printing and packaging materials in the UAE. With close to four decade of experience in the industry, we have established ourselves as a trusted partner for businesses across the region, providing high-quality materials to meet the evolving needs of the printing and packaging sector.

We supply a comprehensive range of products-from A to Z covering all the essential materials required for printing, packaging and related applications. Whether you're looking for Inks, Foils, Press Room Chemicals, Adhesives, or Specialized packaging materials, we have everything you need to keep your operations running smoothly.

Our clients include some of the top-rated packaging companies in the UAE, and our commitment to excellence, reliability, and customer satisfaction has earned us a reputation as a preferred supplier for businesses across various industries.

At Eastern Printing Materials, we pride ourselves on our ability to source and deliver the highest quality products, backed by our unparalleled industry expertise and a deep understanding of our customer's needs.

Our goal is to help you elevate your business by providing the top quality materials at competitive prices, all while ensuring prompt and efficient delivery.

OFFSET PRINTING INKS

PROCESS COLORS INKS :

- ARONON – T - Cyan, Magenta, Yellow, Black.
- COMAX (SOY OIL) - Cyan, Magenta, Yellow, Black.
- ECOMAX HI CURE UV INKS.

PANTONE COLORS & METALLIC INKS :

Yellow, Orange, Warm Red, Red, Rubine Red, Rhodamine Red, Purple, Violet, Reflex Blue, Blue, Green, Gold & Silver etc.

OVERPRINT VARNISH :

- Glossy & Matt.

PRINTING BLANKETS

Printing blankets suitable for various machines and various applications including.

1. UV Printing.
2. Coating (Stripping).
3. E-Form-Self Adhesive Blank.

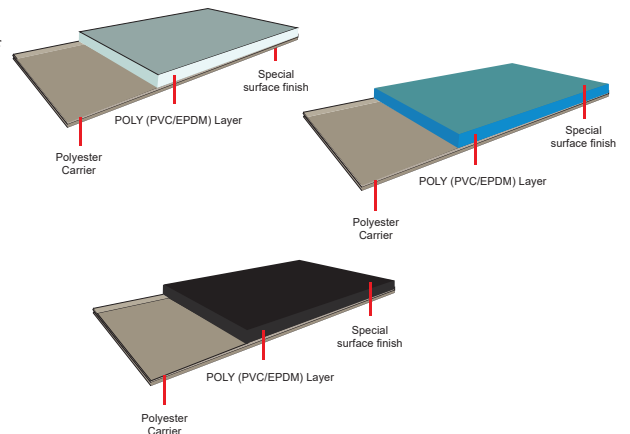

COATING PLATES

A double layer plate for cutting out for an effective and economical use in the packaging. Where it is necessary to have a high quality coating with spots. The method of process out of the press is easy and quick.

It's a replacement of coating blanket.

AVAILABLE IN BELOW THICKNESS :

- Strip Plate Poly 115,135, 195.
- Strip Plate Polarflex 115, 135.
- Strip Plate UV Black 115, 135.

PRINTING PLATES

TYPE : CTP, CTCP.

BRAND : IMAGEPLUS.

THICKNESS : 0.15 mm 0.30 mm.

HOLOGRAPHIC FOIL

We specialize in the supply of premium Holographic Silver Foil tailored for the cigarette packaging industry. Known for its striking visual appeal and high-quality finish, our foil enhances brand identity and provides exceptional shelf presence.

PRODUCT FEATURES :

- Holographic Silver & Gold Foil
- Applications : Cigarette and Luxury packaging.

OUR CAPABILITIES :

• ADVANCED SLITTING UNIT :

We operate high-speed slitting machines to ensure precision cutting and timely delivery.

• FLEXIBLE SUPPLY :

Rolls are converted to specific sizes based on your requirements, helping you reduce waste and optimize production.

• FAST TURNAROUND :

Our infrastructure enables us to meet urgent demands and deliver consistently on schedule.

HOT STAMPING FOILS

Add a touch of elegance and shine with our premium hot stamping foils. Perfect for paper, packaging, labels, and more, these foils deliver vibrant metallic, holographic or matte finishes using heat and pressure-ideal for high end, eye-catching designs.

OUR BRAND : T-SERIES & BRIGHT STAR

Available in Gold, Silver & Colours.

BIO-BASED, BIO-DEGRADABLE, FOOD SAFE, SUSTAINABLE PRODUCTS

AQUA GREEN BARRIER COATING D 95

Our coating offers an eco-friendly alternative to traditional wax & synthetic coatings polyethylene coatings.

KEY FEATURES :

- **100% Plastic-Free & Compostable** - Fully biodegradable and recyclable without harmful chemicals. Superior Barrier Properties - Provides excellent resistance to oil, grease, and water, ensuring premium product protection.
- **Direct Food Contact Safe** - Certified under USFDA 21 CFR 176.170 & 170.180 and RoHS compliant (free from heavy metals).
- **Versatile Application** - Ideal for cup stock, kraft paper, and recycled paper, with heat-sealable properties.
- **Easy Recycling** - can be hydro-pulped without additional chemicals, simplifying waste management.
- **Suitable for sub zero temperature** - can withstand temp of -38° Cel.
- **Self Sealing** - for paper cup can be done as it with stands upto 140° Cel.

CP 200-GREEN ADHESIVE

Bio-Based Bio Degradable Water based adhesive. In addition, our CP200-GREEN adhesive is a sustainable bio-based solution derived from renewable sources.

KEY FEATURES :

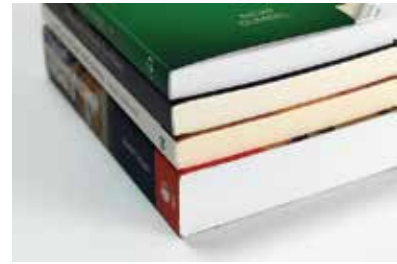

- **Superior Bonding** - Ensures strong adhesion even under variable environmental conditions. It can bond one side absorbing surface & other side non absorbing surface very fast.
- **Special Feature** - When given few hours, it can bond two non-absorbing surfaces such as PE coated surface to PET film for application such as window pasting of job with flat or folded window.
- **Eco-Friendly Composition** - Developed using advanced biomaterials for enhanced sustainability.
- **Versatile Application** - Suitable for various substrates, delivering high performance without compromising environmental goals.
- **Available versions** : CP 200 Green Wheel & CP 200 Green Nozzle.

EASTERN BOND ADHESIVES

EASTERN BOND

BOND OF TRUST

HOT MELT GLUES :

- Perfect Binding Spine & Side common Low Temperature glue.
- Carton Closing hotmelt – Nozzle application.
- Deep Fridge application hotmelt (-18 Deg Cel).

PUR BOOK BINDING HOTMELTS

- PUR-S : DK-9720(Brand: Planatol).

PLANATOL®
smart gluing

WATER BASED GLUE :

- Paper to Paper Cold Binding glue – Roller, wheel, Nozzle application.
- Carton closing glue –Wheel & Nozzle application.
- Automated box making glue (replacement of Animal Jelly Glue).
- Eastern Bond ABM 9999 Odourless, colorless for perfume, luxury, sweet boxes.

BINDING GLUES :

Binding glue is a specially formulated adhesive used for assemble and secure pages in books, magazines, note books, catalogs, paper bags and other printed materials.

LAMINATION GLUES :

Specifically formulated high performance adhesives

- Wet Lamination Glue.
- Dry Lamination Glue.

MODIFIED STARCH COLD WATER MIXABLE GLUES :

- For making paper bag.
- For making paper core, Edge protection board.
- Corrugation pasting on semi/Automatic machine.

THERMAL LAMINATION FILMS

Thermal lamination and cold lamination.

Thermal lamination films are specialized films used to enhance and protect printed surfaces by applying heat and pressure during the lamination process. These films bond seamlessly with substrates, providing a durable and attractive finish.

GLOSSY & MATT (2000 MTRS) :

- Thermal Lamination & Cold Lamination.

SOFT TOUCH (VELVET)

METALIZED FILM

This film has a metal layer deposited on its surface, enhancing barrier properties against moisture and gases. The film undergoes corona treatment, improving adhesion and printability for coatings and inks.

CLEAR PET FILM

PET Clear Sheet-700*1000

Thickness : 18mm, 20mm, 25mm, 30mm

Type : NO PE & PE

STICKER PAPER

• STICKER PAPER :

Glossy & Matt (100 Sheets/Packet)
with slit back and solid back.

• PVC STICKER :

PVC White & Transparent

Suntak

STITCHING WIRES

ROUND STITCHING WIRE :

Available in : 20 to 26 in guages in plastic
spools 2 Kg, 15 kg, 90 Kg wire.

SPIRAL WIRES

Size : ½", ¼", 3/8", 5/16" 7/16" 9/16"

Colours : Black / White / Silver / Gold.

HANGERS :

Size : 57, 76, 115, 150, 225, 324 mm

Colours : Black / White.

PRESS ROOM CHEMICALS

FOUNTAIN SOLUTIONS :

1. Alcohol Replacement.
2. Alcohol Reducer
3. General

BLANKET AND ROLLER WASHES :

PLATE CARE PRODUCTS :

WATERBASED AND UV COATING :

1. Glossy / Matt.
2. UV Coating Varnish.
3. UV Screen Varnish.

OTHER PRODUCTS :

- Roller Paste.
- Plate Gum.
- Calcium Deposit Remover.
- Hand Cleaner, Etc.

SPECIAL CHEMICALS

- Plate Developer.
- Plate Gum.
- Plate Correction Gel & Pens.
- Start Gum - D (Spare gum).
- Anti-Haut Spray.
- Blanket Revive.
- Quick Drier.
- Anti Set- off Powders

DAMPER ROLLER COVERS

- White - Cotton Standard.
- Red - Synthetic.

MOUNTING SHEETS

- 750 x 1050:
100 sheets / packet, 175 mic & 125 mic
- 700 x 1000:
100 sheets / packet, 100mic.
- PVC & PET Films - printable & various thickness
- Laser Poly Drafting Film - Matt, A4 / A3 size

PACKING SHEETS

Underlay Packing Foils (Films) - Self Adhesive available in various thickness and sizes

Calibrated Underlay Card Board / (Packing Sheets) :

Size : 795 x 1030 mm & 800 x 1060 mm.

Thickness : 0.10, 0.15, 0.20, 0.25, 0.30, 0.40 mm.

WASHUP- ROLLS

Mini roll, Jumbo rolls, integrated chemicals.

Jumbo Rolls

Mini Rolls

EYETTING MACHINES

SINGLE HEAD EYELETTING MACHINE :

- For manual operation with automatic eyelet infeed. Suitable for paper, cardboard, plastic etc.
- Ideal for contracts, certificates and labels.
- Punches and eyelets in one work process (the eyelet punches the hole).
- Adjustable rear and side stops.
- Available for eyelets with inner diameters of 4 mm or 5.5 mm.
- With self-punching eyelets: up to 20 sheets with 80 g / m² paper or material thickness up to 2 mm.

Model 102-00

Eyelets

- Gold
- Silver

DIE CUTTING / MAKING MATERIALS

CUTTING RULES

Novaflex, Super 52, 63.
Thickness : 2PT, 3PT & 4PT.

ZIPPER RULES

- 23.80 x 2PT x15 mm.
- 23.80 x 6 mm.

CREASING RULES

Thickness : 2PT & 3PT.
Available in various heights.

CUT -CREASE RULES

- 23.80 / 22.80- 3 x 3 mm,
5 x 5 mm, 10 x 10 mm,
15 x 15 mm.

PERFORATION RULES

23.80 & 23.56 variety of toothing.

OFFSET PERFORATION RULES

- 8 TPI.
- 16 TPI.

JIGSAW BLADES

- 115 x 2.0 ,130 x 2.0, 2.5,160 x 2.0,
2.5, 3.0 & rolls, 130 x 120 x 0.24 / 8 TPI /10 Mtr.

DIE BOARDS

- Available as per the requirments.

EJECTION RUBBER

Open Cell Sponge Rubber :

Degree of Hardness : 25 and 35.

Shore A Thickness : 7, 8, 10, 11, 12, 16 mm.

Properties : One sided or both sided.

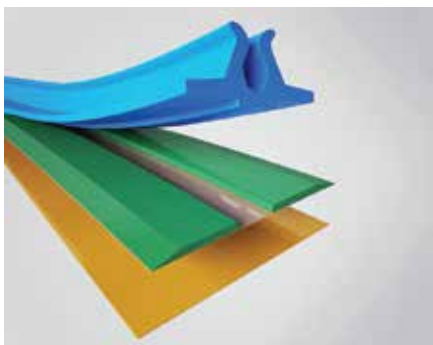

CHANNEL CREASING MATRIX

C&T MATRIX

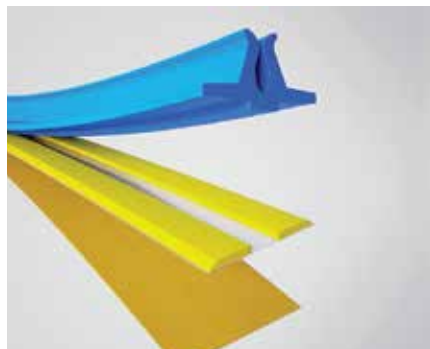

Original :

A steel based matrix mainly used on cylinder machines and hand platens. Due to the flexible locator original matrix works well with the curves on a cylinder machine.

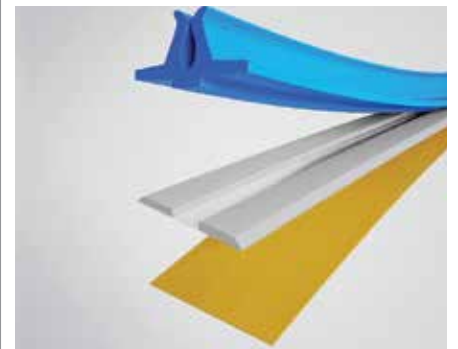

XTC :

A plastic matrix which is low cost and durable; suitable for use on any type of machine. Channel XTC is the most cost-effective matrix system ever.

Kisscrease :

A plastic matrix with a chamfered edge profile. Kiss crease is the optimum balance between cost and quality.

DOUBLE SIDE TAPES

- Packing Tape.
- Double Side Tapes - Red, White, Yellow.
- Patch-up Tapes.
- Vossen Tapes.
- Shim Tapes.
